

What if you had a serious illness?

When you recovered from the physical effects, could you recover from the financial impact?

Medical advances mean people routinely live through conditions we previously thought of as life-threatening. But that health crisis can involve on-going expenses not covered by disability or health benefits. Critical Illness insurance helps you meet the financial demands that often accompany a significant health change, including:

- medical costs not covered by your government or private health insurance,
- transportation to treatment,
- the cost of personal or dependent care,
- convalescence, or any other debts or expenses you face.

Chambers Plan Critical Illness insurance requires no medical evidence, and pays a lump sum benefit of up to \$50,000 following a diagnosis and survival of any of the following:

- Alzheimer's ▪ Aortic Surgery ▪ Aplastic Anemia ▪ Bacterial Meningitis
- Benign Brain Tumour ▪ Blindness ▪ Burns ▪ Cancer ▪ Coma ▪ Coronary Bypass ▪ Deafness ▪ Heart Attack (Myocardial Infarction) ▪ Heart Valve Replacement ▪ Kidney (Renal) Failure ▪ Loss of Independent Existence ▪ Loss of Limbs ▪ Loss of Speech ▪ Major Organ Failure on Waiting List ▪ Major Organ Transplant ▪ Motor Neuron Disease ▪ Multiple Sclerosis ▪ Occupational HIV ▪ Paralysis ▪ Parkinson's Disease ▪ Stroke

You don't need money worries when you're sick!

Let our Critical Illness benefit provide financial assistance to help ease the burden a serious condition or illness can bring.
