

CHANGE NOTIFICATION - EFFECTIVE AUGUST 1, 2022

Dental Implantology Added to Major Services

Currently, Chambers Plan Dental options do not include coverage for dental implantology.

Effective August 1, 2022, dental implantology coverage will be added to the *Major Services* tier of all Chambers Plan Dental options, as alternate treatment for bridgework. Not all Chambers Plan Dental options include the *Major Services* coverage tier. Please consult booklet wording for coverage details.

Effective August 1, 2022, Chambers Plan Master Contracts, as well as applicable booklets, will be updated to reflect these changes. Dental implantology work that occurred prior to August 1, 2022, will not qualify for coverage.
